

## Water Level Dipmeter

Product code: WAG-WE50160

Overview

Downloads

**Wagtech Dip Meters are robust, light and convenient in use, and are all fitted with an extremely strong tape marked in metres and centimeters.**

Powered by a 9V PP3 battery, the dipmeters produce an amplified audio signal (buzzer) when the probe contacts a water surface.

Lengths are available from 20m to 500m. Please leave a comment with your quote request stating what length is required.

- Lightweight and durable design
- Reinforced tape with close interval markings
- Variable sensitivity control
- Wide range of tape lengths up to 500m can be supplied on request
