Technical Data
Electric actuator
Type: EW 11M-4051125/50-6fT/S1344

Construction:

Push-pull-force:	20.000 N
Stroke:	1.125 mm
Speed nominal:	50 mm/s
Insulation class:	F
Disconnection:	integrated acknowledge switch, consisting of 2 pc. signal switches, according to your parameters in our work preset, (ever 1 normally break contact, 1 normally open contact) for max. 250 V, 2,5 A alternating current for the disconnection in the stroke end positions - underneath the nominal stroke
Brake:	electro magnetic brake
Fastening:	yoke as per DIN 71751 eye
Coating:	coating as per manufacturer-standard with 2K structure lacquer serie 449, color RAL 6011
Individual details:	with steel tube-telescope-connecting rod-protection

Rating of power:

Voltage / Frequency	400 V three phase current / 50 Hz
Protection mode:	IP 55
Rating P_N :	12 A
Current I_N :	5,75 kW

Class of rating: S4
